

Red Mountain Freeway Project

Traffic Change Notice

April 2006

ADOT

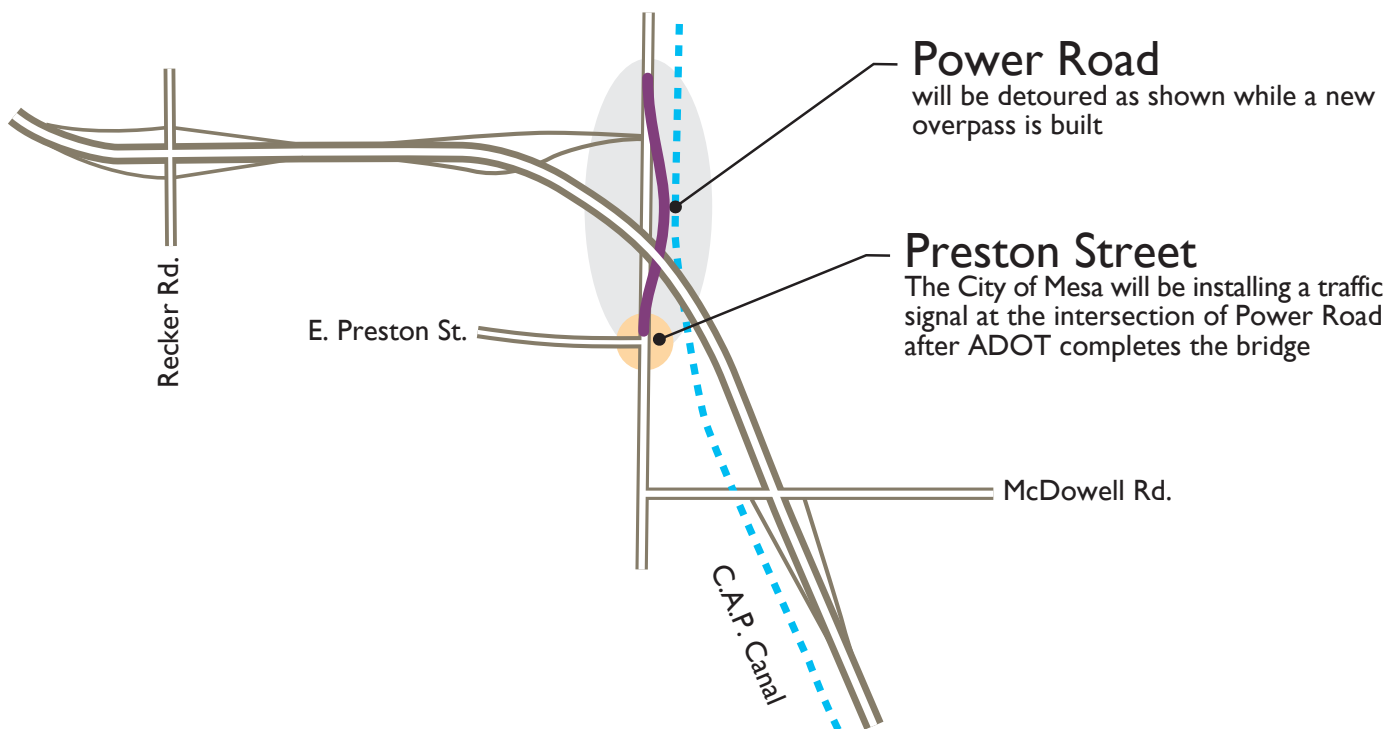

Traffic Changes Start April 18

The Arizona Department of Transportation is in the process of constructing the Red Mountain Freeway between Power Road and University Road. As part of this process, a new bridge is being built over Power Road, meaning that traffic will be restricted at the intersection of Power Road and East Preston Street. Please see the map.

There will be no left turns from East Preston Street onto Power Road and no left turns from northbound Power Road onto East

Preston Street. Pedestrian traffic along Power Road will use a temporary sidewalk, which will be separated from the construction site by chain link fencing and protected from traffic by concrete barrier. This change will be in effect for six to seven months.

Thank You!! . . .
for your continued support and patience during the Red Mountain Freeway construction. The new freeway is part of the 2004 voter-approved Regional Transportation Plan.

We are working hard to implement the voters' vision and are committed to open communication with our neighbors and minimal inconvenience. For more information call Brock Barnhart, ADOT Office of Communication and Community Partnerships. 602-712-7176 or bbarnhart@azdot.gov.
